

To Create Demo Scenarios, Validate Features, Rehearse Presentation, Demonstrate Pipelines, Demonstrate Signals, Final Project Review.

```
saanvi_kompelli@DESKTOP-2U40RG7: ~/Skill_Project$ echo Hello
Hello
saanvi_kompelli@DESKTOP-2U40RG7: ~/Skill_Project$ ls | grep ".c"
saanvi_kompelli@DESKTOP-2U40RG7: ~/Skill_Project$ ls | grep ".c" | wc -l
0
```

4. Signal demonstration

Run a foreground command and press:

Ctrl + C

to demonstrate SIGINT.

For suspension:

Ctrl + Z

to demonstrate SIGTSTP.

Then:

fg

to resume the foreground job.
